

MAY 3RD 2018

11:00 AM – 1:00 PM

CORKER LOUNGE, STUDENT CENTER, SIU

The Department of Computer Science is hosting an end-of-year poster presentation session where students will present their capstone projects in CS. The projects are motivated by real-world problems from the industry and academic community and touch on areas ranging from traditional software development, to machine learning and autonomous vehicle planning.

For more information on the teams and projects, see www.bhoxha.com/CS499S18.html
