

SPRING 2020

Computer Science Special Topics

CS 491-1 / CS 306-1

Monday, Wednesday, Friday

2:00 – 2:50 p.m.

EGRA 207

Monday Lab Session 3:00-3:50 PM EGRA 408

Instructor – John Woods

Linux/UNIX Programming

(Graduate Category 2)

This course will prepare students to develop software in and for Linux/UNIX environments. Topics to be covered include basic operating system concepts, effective command line usage, shell programming, the C language, programming development tools, system programming, network programming (client-server model and sockets), and GUI programming.

Prerequisite: CS 220 with a grade of “C” or better
